VOLUME CONTENTS

Number 1

L. L. Sellers and J. M. Niedzwecki	1	Response Characteristics of Multi-articulated Offshore Towers
J. M. Niedzwecki and J. R. Huston	21	Wave Interaction with Tension Leg Platforms
P. R. Payne	39	A Unification in the Added Mass Theory of Planing
L. G. Golmen and B. Cushman-Roisin	57	A Self-sustained Pump Across Temperature–Salinity Gradients in Coastal Waters
D. L. Kriebel	75	Nonlinear Wave Interaction with a Vertical Circular Cylinder. Part II: Wave Run-up

Number 2

R. J. Sobey	101	The Distribution of Zero-crossing Wave Heights and Periods in a Stationary Sea State
W. J. C. Boef	119	Launch and Impact of Free-fall Lifeboats. Part I. Impact Theory
W. J. C. Boef	139	Launch and Impact of Free-fall Lifeboats. Part II. Implementation and Applications
P. S. Tromans, P. M. Hagemeijer and H. R. Wassink	161	The Statistics of the Extreme Response of Offshore Structures
R. Latorre and Singkorn Teerasin	183	Calculation of Hydrofoil Craft Take-off Speed Including Influence of Foil Size, Foil Angle and Propeller Shaft Angle

T. L. Walton Jr	199	Interim Guidance for Prediction of Wave Run-up on Beaches
Technical Note *A. V. Hegde and K. G. Shirlal*	209	Comparison of Wave Statistics Obtained by Using Continuous and Digitized Form of Random Waves
News and Notices	215	

Number 3

S. C. S. Yim, R. M. Burton and M. R. Goulet	219	Practical Methods of Extreme Value Estimation Based on Measured Time Series for Ocean Systems
T. L. Walton Jr	239	Wave Reflection from Natural Beaches
S. Meenakshi Sundaram, K. Ganesh Babu and P. A. Aswathanarayana	259	Probabilistic Model for Wave Forces Acting on a Cylinder in Random Waves
M. Rahman, M. G. Satish and Y. Xiang	271	Wave Diffraction due to Large Offshore Structures: a Boundary Element Analysis
G. D. Hahn	289	Sensitivity of the Dynamic Response of Simple Offshore Structural Models
N. Jensen and R. Latorre	303	Prediction of Influence of Stern Wedges on Power Boat Performance
Technical Note *M. S. Reddy and S. Neelamani*	313	Wave Transmission and Reflection Characteristics of a Partially Immersed Rigid Vertical Barrier

Number 4

S. Neelamani and M. S. Reddy	327	Wave Transmission and Reflection Characteristics of a Rigid Surface and Submerged Horizontal Plate
C. W. Li and M. Mao	343	Stability and Accuracy Control in Ocean Wave Model Using Stack Filter

K. E. Steele, Chung-Chu Teng and D. W. C. Wang	349	Wave Direction Measurements Using Pitch-Roll Buoys
Technical Note *C. O. Ng and S. C. Kot*	377	Computations of Water Impact on a Two-dimensional Flat-bottomed Body with a Volume-of-fluid Method
Technical Note *D. Myrhaug*	395	Rational Approach to the Bottom Shear Stress in Tidal Planetary Boundary Layer Flow
Technical Note *P. M. Belles, M. J. Maurizi, P. A. A. Laura and H. C. Sanzi*	405	Free Virbrations of Rectangular Plates of Exponentially Varying Thickness and with Two Free Edges
Books Received	409	
News and Notices	411	

Number 5

V. Sundar, H. Noethel and K. P. Holz	413	Wave Climate in a Groin Field
P. Vethamony, P. Chandramohan, J. S. Sastry and S. Narasimhan	427	Estimation of Added-mass and Damping Coefficients of a Tethered Spherical Float Using Potential Flow Theory
J. Skourup, M. J. Sterndorff and E. A. Hansen	437	Numerical Modelling of Wave–Structure Interaction by a Three-dimensional Non-linear Boundary Element Method: a Step Towards the Numerical Wave Tank
Technical Note *H. Larrondo, D. Avalos and P. A. A. Laura*	461	Natural Frequencies of a Bernoulli Beam Carrying an Elastically Mounted Concentrated Mass
Technical Note *J. C. Cranford and T. H. Orsi*	469	Evaluation of a High-speed Serial Link for Marine Data Acquisition
Technical Note *K. L. Tuttle*	479	Reactants for Deep Submergence Vehicles

Technical Note *M. R. Mitchell and J.-G. Dessureault*	489	A Constant Tension Winch: Design and Test of a Simple Passive System
Technical Note *I. R. Young*	497	The Determination of Spectral Parameters from Significant Wave Height and Peak Period
News and Notices	509	

Number 6

R. Tatavarti and Y. Andrade	511	The Eigenvalue Problem as a Form of Minimum Least-squared Approximation
J. Skourup and I. G. Jonsson	527	Computations of Forces on, and Particle Orbits Around, Horizontal Cylinders Under Steep Waves
Yanqiu Dong, Geng Xie and J. Y. K. Lou	555	Stability of Vortex-induced Oscillations of Tension Leg Platform Tethers
B. T. Rosson and J. W. Tedesco	573	Dynamic Response of Dolos Armor Units to Drop Test Impact Loads
Volume 19 Title Section, Contents and Author Index	i	

AUTHOR INDEX

Andrade, Y. 511
Aswathanarayana, P. A. 259
Avalos, D. 461

Belles, P. M. 405
Boef, W. J. C. 119, 139
Burton, R. M. 219

Chandramohan, P. 427
Chung-Chu Teng 349
Cranford, J. C. 469
Cushman-Roisin, B. 57

Dessureault, J.-G. 489

Ganesh Babu, K. 259
Geng Xie 555
Golmen, L. G. 57
Goulet, M. R. 219

Hagemeijer, P. M. 161
Hahn, G. D. 289
Hansen, E. A. 437
Hegde, A. V. 209
Holz, K. P. 413
Huston, J. R. 21

Jensen, N. 303
Jonsson, I. G. 527

Kot, S. C. 377
Kriebel, D. L. 75

Larrondo, H. 461
Latorre, R. 183, 303
Laura, P. A. A. 405, 461
Li, C. W. 343
Lou, J. Y. K. 555

Mao, M. 343
Maurizi, M. J. 405
Meenakshi Sundaram, S. 259
Mitchell, M. R. 489
Myrhaug, D. 395

Narasimhan, S. 427
Neelamani, S. 313, 327
Ng, C. O. 377
Niedzwecki, J. M. 1, 21
Noethel, H. 413

Orsi, T. H. 469

Payne, P. R. 39

Rahman, M. 271
Reddy, M. S. 313, 327
Rosson, B. T. 573

Sanzi, H. C. 405
Sastry, J. S. 427
Satish, M. G. 271
Sellers, L. L. 1
Shirlal, K. G. 209
Skourup, J. 437, 527
Sobey, R. J. 101
Steele, K. E. 349
Sterndorff, M. J. 437
Sundar, V. 413

Tatavarti, R. 511
Tedesco, J. W. 573
Teerasin, S. 183
Tromans, P. S. 161
Tuttle, K. L. 479

Vethamony, P. 427

Walton, T. L. Jr 199, 239
Wang, D. W. C. 349
Wassink, H. R. 161

Xiang, Y. 271

Yanqiu Dong 555
Yim, S. C. S. 219
Young, I. R. 497
